THE BILLIARD MATCH.

PARKER VICTORIOUS IN TWO STRAI HT

Early Saturday evening a large crowd began gathering at the new bill ard saloon | made note of elsewhere, nothing of interin the United States Hotel, and at halfpast seven the rooms were filled to their utmost capacity with persons awaiting eagerly for the coming pleasure of a match game of billiards between Mr. Parker, of Louisville, and Mr. Greffey, of

At eight o'clock the umpire called Parker at the one, who led off with a run of one hundred and seventy-one, the largest one of the evening. Mr. Greffey then followed by a rns of five, thus place ing Parker far in advance of his competitor, which be maintained throughout the

On the fifth shot Parker made another excellent run of one hundred and fifteen. During this run several shots were loudly applanded by those around.

Mr. Greffey's run was forty-five. On the twelfth shot, the game closed by a run of twenty-five for the Lonisville representative, the score standing, Parker, five hnndred and one: Greffey, one hundred and seventy-one. Mr. Parker's average during made in this city, being forty one and two

It being previously arranged that the winner of the first game should engage in contest with Mr. Brnnswick, one of Ohio's greatest champions, Mr. Parker, after the congratulations of many friends, led off in a second match.

This was longer than the other, though not the least interesting, for several difficult shots were executed by both players. After nineteen shots for Parker, and eighteen for Brunswick, the game was decided in favor of the former gentleman, on a score of five hundred and one to three hundred and thirty-two.

Mr. Parker's average in this game was twenty-six and seven-nineteenths. The table was vacated for others, and the amnaing aport 'of punching halls' was carried on until a late honr.

It is not cessary to say anything else to secure hem a grand reception and liberal supfort while they remain here, for their exsordinary talent is known to our theater zoers, and their protracted absence from th's city (thirteen years) has made the deire to see them irrepressibly eager.

The introductory programme is one of ncommon variety and excellence. It includes the fairy spectacle of the Fairy Crele, the fnn-provoking farce of Custom of the Country, and the comedietta Loan of a Lover.

The effects of the harricane last Friday night were quite disastrous in some parts of the State. At Franklin. Simpson county, a large two-story tobacco warehouse was completely demolished. The roof was torn from the Baptist church and several other huildings injured. In the country much valuable timber was blown down, the largest trees snapping like pipe-stems before the fury of the erce wind. Barns and houses were unroofed, fences prostrated, hay and grain stacks overturned, and other damage done

to property. Yesterday was the loveliest day we have enjoyed in these parts for "a month of Snndays." The sky was unclouded, the air was balmy, and blest Nature, in all its voices whispered, and in all its silent things breathed the deep beauty of the tidiest habits and hrightest smiles, affording a spectacle of moral and physical grandenr rarely to he witnessed at thia

THE EXERCISES. Between three and four o'clock the large hall of the new edifice was filled by embers of the School Board, General Conneil, teachers of the public schools pareuts and children, and disinterested friends of education.

The exercises were opened with a chorus of eight or ten gentlemen well known in our city as excellent singers, connected with the various musical associations of the city. They were accompanied by a delightful piano from the manufactory of Peters, Webb. & Co., which the School Board has recently purchased for the

He was glad that they had a building in which they would feel comfortable, and in which they could make their pupils comfortable. At the same time he did no wore that he would kill her if she at- wish them to forget that they had higher empted it. He urged increased attention to the morals and hubits of pu pils, and hoped this school would enjoy a seful and noble career.

George W. Morris, Esq , well known as ner most efficient President of the school Board, was then introduced by President Robinson. In his usual happy manner he recited a brief but interesting history of the public schools of Louisville for the last eighteen years.

When he first knew the schools, they were crowded iuto rooms, over engine houses, and were generally known as "pauper schools." After a great deal of oleut opposition on the part of the propby an enactment of the Legislature, providing, among other things, for the levyhundred dollars, and requiring the Gen school houses, subject to the ratilication of the people at the ballot-box. Since this,\$200,000 more have been appropriated or the same noble purpose; and so great a clauge has occurred, that now it is only secessary to ask our enlightened city

athers for money for such a purpose in order to obtain it. He gave one striking instance among a iousand which had come under his notice llustrating the incalculable benefits of popular education to the masses.

He alluded most happily to the fact that many years ago, when the part of the city where this beautiful edifice now stands was unsettled-all in commons-a committee of the School Board, consisting of of Nat. Wolfe, Sim Watkins, Col. l'ennebaker, and himself, purchased this lot for afteen dollars a foot. Their action, how ever, was condemned as unwise, because of the great distance of the location from he population then needing a school The result has demonstrated the of the selection, and shows the rapid growth of our city. enough to fill it He closed his interesting remarks with happy allusions to the progress of the schools of the city, and with good wishes for the success of the one about to be opened in this new building.

The speech of Mr. Morris was followed another delightful chorns from the hoir, improvised for the occasion. Phil. T. German, the well-known and ef-

ficient Councilman, was then called out. He expressed his gratification over the vidence of such a harpy expenditure of the people's money, and he hoped that the School Board would be obliged to call often upon the Conneil for money for such purposes. So, also, it swelled the lineome of business not and thereby wastly increased the revenue of the government. The greet question at issue is the right of the government to pay, and the policy of paying, the debt in green and the policy of paying, the debt in green and manks: "Varicus muthods are suggested to redeem the 5-20s in currency. One very able writer angreeds a loan in greenbacks to ospective lusiness of the country would irly absorb an amount large enough to deem these bonds a they become due,

regulate the value of any other kind of money. He manitahus, consequently, that it is just and proper for the Government to just the mational debt in green-backs—lawful money.

Referring to the debt, he says: "Now, let us come to the Government loan, and for a single moment consider it, which, even without the monarrus doctrine of Greeley and Cooke, is the most profitable investment ever made by money lenders, and is a monstrous swindle ou Americans on the part of Europeau capitalists. However, he would pay in full the rich capitalists and speculators who have made princely fortunes through the folly of the Government, but he does not think there is any obtigation to force apacie payments, in order to pay two or three times over what they are really and justly contilled to. He shows, beyond contradiction, that, in one ting loans, there was no intention on the part of Congress to commit the Government to the juyment of the principal in
